

# 如何注册Solvnet?

步骤1, 打开 <https://solvnet.synopsys.com>, 使用公司邮箱注册一个账号

The image shows the Synopsys Sign In page. The main heading is "Synopsys Sign In" with the tagline "Silicon to Software". Below the heading, it says "Sign in to access all protected Synopsys applications, including SolvNet Online Support. Protected applications are only available for Synopsys customers." There are input fields for "Username" and "Password", and a "Sign in" button. A link "Forgot username or password?" is also present. A callout box on the right side of the page highlights the "SIGN UP FOR AN ACCOUNT" link. The callout box also contains the "New User Registration" section, which includes links for "Recover Username" and "Recover Password". At the bottom of the page, there is a footer with copyright information and links for "SIGN IN SUPPORT", "TERMS OF USE", and "PRIVACY POLICY".

Important: Please Read Before Registering.

To access Synopsys protected applications, you *must* provide an [Active Site ID](#) in the field below.

点击这里了解如何  
获取Site ID

#### 1. Locate your Synopsys license keyfile

```
UNIX> lsmstat -c $SNPSLMD_LICENSE_FILE lsmstat - Copyright (c)
1989-2006 by Macrovision Corporation. Flexible License Manager
status on Fri 1/11/2008 15:59 License server status: 27000@my_server
License files(s) on my_server: /flexlm/scl/admin/license/synopsys.lic ...
```

...  
In this example, \$SNPSLMD\_LICENSE\_FILE is the licensing variable and the Synopsys keyfile is located at /flexlm/scl/admin/license/synopsys.lic.

Note: Sometimes \$LM\_LICENSE\_FILE is used in place of \$SNPSLMD\_LICENSE\_FILE. If you are unsure of which variable to use, check your user environment (printenv) or contact your system (or licensing) administrator.

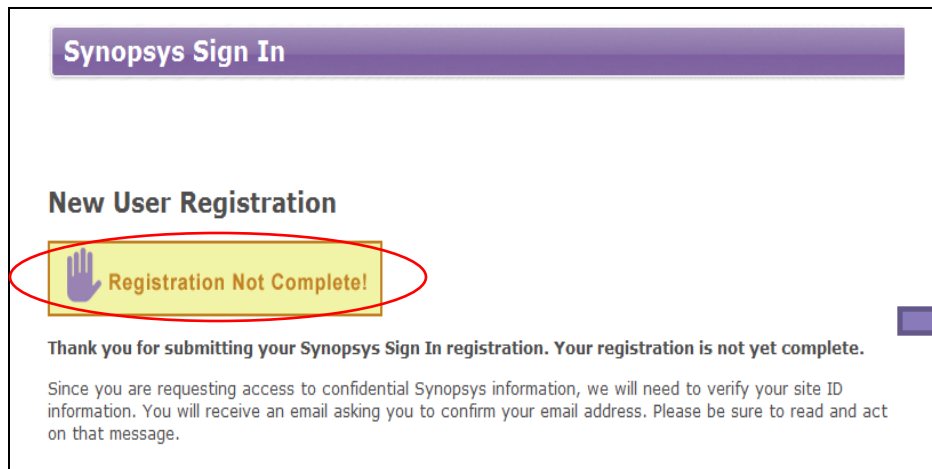

#### 2. grep the file for "Site ID" or view the header information to locate the Site ID field.

```
UNIX> cat /flexlm/scl/admin/license/synopsys.lic
```

```
#Date: 07/05/2004
# SYNOPSYS INC. KEY CERTIFICATE
# Site ID: 77777
# Your Company Name
# 123 Main Street # Anytown
# CA 12345
# US
```

In this example the Site ID is 77777. If the Site ID shows as 000 or 1700, then the information is incorrect.
