Synopsys Accelerated Customer Education program opens its on-demand platform to partner universities. Students can access fundamental courses like ASIC Design Flow, CMOS, VLSI Fundamentals, and Synopsys tool courses to gain in-depth knowledge required to land that first job. Available to all students with SolvNetPlus access. No subscription needed.

Learn at your own pace. Anywhere. Anytime.

Self-Paced Learning

Synopsys offers rich self-paced training content to accelerate your learning "when you need, wherever you need". The online courses are accessible 24x7x365 and are organized in a way that allows you to consume the content at your own pace.

Learning Journeys

Let our Learning journeys be your guide and help you become an expert user.
