

Synopsys Executive Briefing Center

Collaboration for the Era of Smart, Secure Everything

Welcome to the Synopsys® Executive Briefing Center, where together we collaborate on driving the next 10x of innovation and addressing the increasing complexities of our industry, from silicon to software. The free exchange of ideas that happens here with our customers, partners, and suppliers allows us to unify and sharpen our focus on solving crucial technology questions.

We're eager to learn more about your toughest challenges and explore how our EDA, IP, and software integrity solutions can help you achieve your technical and business objectives. Our R&D, technical applications, and executive teams' wealth of expertise is dedicated to your success. To ensure you have a highly productive visit, we call on the right combination of this outstanding staff to meet with and hear from you, and to update you on what we're doing to help your current and future projects thrive.

Thank you for the trust you put in us during these discussions. We look forward to meeting with you in our Executive Briefing Center soon.

Sincerely,

Aart de Geus and Chi-Foon Chan
Co-Chief Executive Officers

We live in an exciting era of smarter devices, clever applications, and connected everything. Our customers face tremendous pressure to build differentiated chips and develop robust code more quickly and cost-effectively than ever before. And with the increasing amount of embedded software in today's devices, security and quality are top concerns. At Synopsys, we know that collaborating with strategic partners is vital to innovation. Our Executive Briefing Center is committed to helping you pinpoint the best solutions so you can design smarter and deliver faster.

Collaborative Environment Focused on Your Success

Our Executive Briefing Center provides a dedicated environment where you can engage directly and strategically with Synopsys technology experts and executives. Together, we focus on your unique requirements and help you identify and adopt new solutions and methodologies to achieve your technical and business goals.

Industry-Leading Solutions, from Silicon to Software

Synopsys technologies and services are designed to help you speed time to market, achieve the highest quality of results, get the greatest value out of your investment, mitigate risk, and maximize profitability.

Silicon Design & Verification: Our comprehensive portfolio of EDA tools addresses each phase of digital and mixed-signal design, for every process node down to 10nm. With robust support for silicon design, verification, prototyping, and manufacturing, you can quickly develop advanced chips and start software development earlier for a wide range of end markets—from IoT and consumer to industrial and automotive.

Silicon IP: Synopsys is the leading provider of high-quality, silicon-proven IP solutions for complex SoC design and verification. Our broad DesignWare® portfolio includes complete interface IP solutions, verification IP, security IP, analog IP, embedded memories and logic libraries, processor solutions, and IP subsystems to reduce integration risk and help you bring your chips to market faster.

Software Security & Quality: Synopsys is setting the standard for software security by maximizing risk-visibility across the cyber supply chain. We'll help you fix defects and vulnerabilities with unmatched depth, accuracy, and speed so you can avoid costly product crashes, unexpected behavior, security breaches, or catastrophic system failure. Our software security, quality, and compliance solutions are ideal for safety-critical industries such as medical and automotive.

Services: For companies implementing advanced SoCs and ASICs, Synopsys Professional Services offers tool and methodology consulting, design flow deployment, core optimization, and more. We'll help you select the right tools at the right time, apply best practices, or migrate your platform—without disrupting your existing processes.

Support: Our Global Support Team is ready to assist you, online or in person, with any level of technical complexity so that your project stays on schedule. You also have access to our extensive library of online resources. To accelerate your proficiency with Synopsys tools, we offer a full catalog of live, virtual, and on-demand training classes.
