

Dr. Bijan Kiani

Vice President of Product Marketing, Design Group, Synopsys, Inc.

Dr. Bijan Kiani joined Synopsys in 1997. In his current position, Dr. Kiani manages product marketing for the Custom/AMS, Physical Verification, and Test product families.

Before joining Synopsys, Dr. Kiani founded INCA, an FPGA prototyping company that was eventually acquired by Zycad, now Microsemi. Previously, Dr. Kiani worked as a design engineer for Unisys and NEC, and as design manager at European Silicon Structures. Dr. Kiani has more than 20 years of IC design and EDA experience.

Dr. Kiani received his Ph.D. from the University of Edinburgh, UK.
