Michael (Mick) Posner joined Synopsys in 1994 and is currently the Senior Director of Product Marketing for Synopsys DesignWare® High-Performance Computing (HPC) IP solutions. These solutions include memory interfaces such as DDR, LPDDR, and HBM, PCI Express®, CXL, Ethernet, 56/112G SerDes, Die-to-Die, and evolving HPC standards that target cloud computing applications such as servers, networking, enterprise storage, and AI accelerators. Prior to this role, Mr. Posner held a range of management positions in product marketing, applications consulting, and technical marketing at Synopsys.

Mr. Posner holds a Bachelor’s degree in Electronic and Computer Engineering from the University of Brighton, England.
