

Navraj Nandra

Senior Director, Marketing, DesignWare Analog and MSIP, Solutions Group

Navraj Nandra joined Synopsys in February 2005 and is the senior director of marketing for the DesignWare Analog and mixed-signal IP products.

Mr. Nandra has worked in the semiconductor industry since the mid 80's as an analog/mixed signal IC designer for Philips Semiconductors, Austria Micro Systems, (San Jose & Austria) and EM-Marin (Switzerland). He has been responsible for the complete design of a number of analog front ends in application areas such as digital audio, RFID and automotive.

He joined Synopsys from Barcelona Design where he was Director of Application Engineering. During his four years at Barcelona, he was responsible for pre- and post-sales support for Barcelona's analog synthesis technology.

Mr. Nandra holds a Master's degree in Microelectronics, majoring in analog IC design, from Brunel University and a post-graduate diploma in Process Technology from Middlesex University. He has presented at numerous technical conferences on mixed-signal design, analog IP and analog synthesis/EDA.
