

Sriram Sitaraman
Chief Information Officer

Sriram joined the Synopsys team in 1997 and currently serves as the Chief Information Officer leading Synopsys' global information technology teams. He brings over 20 years of experience in scaling IT and R&D infrastructure, operations and business processes, while also enabling employee productivity to support the growth objectives of the company. As a seasoned change agent, Sriram has overseen several transformations in engineering infrastructure, such as enabling high performance computing and adoption of cloud computing, changing out the service management stacks for both internal and external customers to improve, and enabling sustainable collaboration at Synopsys. Additionally, he holds multiple patents in areas of IT operations, distributed processing and monitoring. Sriram has a Master's of Science in Electrical and Computer Engineering from the University of Alabama at Tuscaloosa.
