

## Swami Venkat

Senior Director of Marketing, Design Group

As senior director of marketing for the Synopsys Design Group, Swami Venkat is responsible for marketing of the Galaxy Design Platform. Prior to that, Mr. Venkat was responsible for product marketing of the functional verification tools in the Verification Group. He joined Synopsys in 1998 and has 20 years of experience in the VLSI design and EDA industries.

Prior to joining Synopsys, Mr. Venkat worked as a hardware engineering manager at Sun Microsystems, managing the chip, board and system-level verification of Sun's Solaris server product lines. Prior to Sun, he worked as a circuit designer and verification engineer for the MIPS microprocessor family at SGI, Inc.

Mr. Venkat has a B.S.E.E. from Mangalore University, India, and an M.S. in Engineering Management from Stanford University.
