

Walter Wottreng

Vice President, Automotive Group

Walter Wottreng joined Synopsys as VP of Automotive in June 2021. He previously worked at Bosch, where he started his professional career as a software developer and advanced into several engineering management roles. For the last 15 years, he has held roles in sales, marketing, and business development.

Walter holds a master's degree in electrical engineering from Germany. He has lived and worked on three different continents and enjoys living his passion for innovation in the mobility technology field.
