

CERTIFICATE OF REGISTRATION

Information Security Management System
ISO/IEC 27001:2022

Synopsys, Inc.

A-LIGN Compliance and Security, Inc. certifies that the organization operates an Information Security Management System that conforms to the requirements of ISO/IEC 27001:2022. The scope and boundaries of the ISMS is as follows:

The certificate scope comprises the Information Security Management System (ISMS) supporting the operations underlying the Synopsys Secure Clusters ("Secure Clusters") and the Synopsys ZeBu Cloud offerings. The Synopsys Secure Clusters offering provides customers with a preconfigured environment that enables secure integrated circuit design. The data center and environment are physically hosted and logically isolated by Synopsys for each customer. The environment per customer is built to spec according to contractual agreements with clients. The organizational scope includes the Information Technology, Information Security, and IT Customer Support teams affecting which affect the ISMS.

The Synopsys ZeBu Cloud offerings, also referred to as HAV Cloud or HW Cloud, which provides customers with a preconfigured environment or fully build to specification that enables a hosted emulation solution that delivers flexible turn-key and secure emulation to accelerate software bring-up, performance validation, power analysis, and system validation for IP and SOCs. The data center and environment are physically hosted and logically isolated by Synopsys for each customer. The environment per customer is built to spec according to contractual agreements with clients. The organizational scope includes the Information Technology, Information Security, and IT Customer Support teams, which affect the ISMS.
