Information Security Management System
ISO/IEC 27001:2022

Ansys, Inc.

A-LIGN Compliance and Security, Inc. certifies that the organization operates an Information Security Management System that conforms to the requirements of ISO/IEC 27001:2022. The scope and boundaries of the ISMS is as follows:

Ansys Cybersecurity Management System (CSMS) (in accordance with the requirements of Ansys Cloud and Ansys Discovery and the International Organization for Standardization standards ISO/IEC 27001:2022 and ISO/IEC 27017:2015) is focused on appropriately preserving data privacy and the Confidentiality, Integrity, and Availability (CIA) of Ansys' information assets. The CSMS framework serves as Ansys' mechanism to appropriately identify, select, maintain, and improve information security controls that support the company's in-scope services depended upon by internal stakeholders and external clients and customers. These services include the cloud hosted Ansys Cloud Direct Azure environment and certain Ansys owned or leased management and maintenance services required to support the environment. The Ansys CSMS is managed from the Ansys office in Canonsburg, Pennsylvania, USA and supported by a distributed workforce.

The statement of applicability additionally includes control objectives from the ISO 27017:2015 framework.
