The Ninth Annual International Microelectronics Olympiad of Armenia Attracted Young Engineers from 22 Countries

The final stage of the Armenian Olympiad welcomed 42 participants

“Such initiatives should always be encouraged as they allow recognizing and appreciating the bests, whose skills and knowledge can greatly contribute to the development of IT sphere that has a strategic importance for Armenia’s economy. At the same time the Olympiad highlights Armenia on the world IT map as a regional center for microelectronics.”

Hovik Abrahamyan

The Prime Minister of the Republic of Armenia

“During the past nine years the Olympiad has served its main objective of stimulating further development of microelectronics in Armenia and the region. Now the Olympiad continues to help supporting the business goals of companies in the semiconductor industry.”

Vazgen Melikyan

Program Committee of the Olympiad and Director of SAED

“Initiated by Synopsys Armenia and under the auspices of the Prime Minister of Armenia, the Olympiad plays an important role in creating a global community of young specialists involved in microelectronics.”

Armen Baldryan

President of the Olympiad Organizing Committee

President advises educational award winners to master knowledge creatively

17:10, 16 October, 2014

YEREVAN, OCTOBER 16, ARMENPRESS: On October 16, the annual awarding ceremony took place in the president's residence. Twenty-six students and sixteen pupils from 5 universities and 8 high schools received Armenian President's annual educational award. Since 2005 since today, 322 students and pupils have been awarded with the President's prize in different nominations of IT sphere.

"The sphere of the information technologies is a priority for us. Today that sphere is not only our future but the present as well. Future belongs to the states, societies and peoples that are able to understand this and achieve successes in the IT field. We like it or not, we should become an information society," said Serzh Sargsyan.

"I congratulate you, because you are successful and have all the opportunities to improve your achievements in future. You are precious for us, as everything in any field depends on you," stressed the President in his address to the award winners.

"You have reached success, because you have shown a creative approach," underlined the President urging them to continue improving their professional qualities by mastering the knowledge creatively.
