Geprüft nach

ISO 26262:2018 (Parts 2, 4, 5, 8, 9)

ISO/SAE 21434:2021

**Technical Data and
Parameter**

Technische Daten und Parameter

The scope of the assessment of the Synopsys Automotive MIPI CSI-2 CSE2 Security Module, which supports multiple variants, is presented in detail in the certification reports. The identified technical and process parameters are in compliance with **ASIL B** and **Cybersecurity** requirements.

The achieved safety integrity level for systematic faults is ASIL D and for random hardware faults is ASIL B.

Any changes to the product or processes may require repetition of the relevant assessment steps in order to retain the certificate validity.

The certification report is an integral part of this certificate. All requirements and specifications of the current valid revision of this report shall be met.

The certificate is based on voluntary tests. The compliance of the certified product against the requirements of above listed standards was evaluated. Any changes to the design, components or processing may require repetition of some parts of the certification in order to retain the certification. All applicable requirements of the testing and certification regulations of SGS-TÜV Saar GmbH have to be complied, see www.sgs-tuv-saar.com/tcr-muc and www.sgs-tuv-saar.com/qtc-muc.
