

2020 AT A GLANCE

1,253
applications audited

Codebases & open source

99% of codebases audited in 2019 contained open source components.

In 9 of 17 industries, 100% of the codebases contained open source.

Open source made up **70%** of the audited codebases.

Vulnerabilities

75%
of codebases contained vulnerabilities.

49%
of codebases contained high-risk vulnerabilities.

Licensing

33%
of codebases contained unlicensed software.

67%
of codebases had license conflicts.

Operational factors

82% of codebases had components more than four years out of date.

88% of components had no development activity in the last two years.

Find more information on improving your open source management in the **2020 Open Source Security and Risk Analysis Report.**
